

REMOTE HORN/STROBE LIGHT COMBINATION

MODEL RHSC

GENERAL DESCRIPTION:

Toxalert's Model RHSC, shown at right, is a horn/strobe combination used in conjunction with Toxalert gas detection systems and provides excellent visual & audible indication if warning or alarm conditions exist. This strobe light is available in five colors – red, amber, blue, green and clear, with a choice of three voltage options (see specifications).

The Model RHSC is designed for both indoor and outdoor environments.
